

SUMMIT ACADEMY CLASS

Warehousing 101

Course Description:

Warehousing 101 - Warehousing Basics is a comprehensive 1-day course designed to provide participants with a solid foundation in warehouse operations and management in Business Central. This course covers essential concepts, configurations, and practices necessary for effective warehouse management.

Course Outline:

1. Warehouse Concepts

- Understanding bins, racking, zones, and pick paths.
- Exploring the significance of warehouse layout and organization for efficient operations.

2. Warehouse Configuration Options

- **Bin Setup:** Learn to configure storage bins for optimal inventory management.
- **Inventory Transactions:** Understand different types of inventory transactions and their implications.
- **Warehouse Transactions:** Gain insights into warehouse-level transactions for seamless operations.
- **Movements:** Explore the process of inventory movements within the warehouse and its impact on overall efficiency.

3. Basic Warehouse Setup

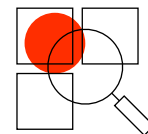

- Establishing a basic warehouse setup tailored to specific business needs.
- Implementing best practices for warehouse layout and design to maximize space utilization and productivity.

4. Basic Inventory Transactions

- **Inventory Putaway:** Master the process of receiving and storing inventory in designated bins.
- **Inventory Movement:** Learn how to facilitate smooth inventory movements within the warehouse.
- **Inventory Picks:** Understand the intricacies of picking inventory items for orders or distribution.

Learning Objectives

1. Have a firm understanding of basic warehouse configuration options including: bin setup, racking, zones and pick paths
2. Have a firm understanding of basic warehousing transactions including: inventory put aways, inventory movements and inventory picks
3. Understand what level of warehousing complexity is required to handle warehousing for their business.

Additional Information:

Target Audience

This course is ideal for warehouse managers, supervisors, logistics professionals, inventory control personnel, and anyone involved in warehouse operations or seeking to enhance their knowledge in this field.

Prerequisites

No prior experience or knowledge in warehouse management is required. This course is suitable for beginners as well as individuals looking to refresh their understanding of warehousing basics.
