

# SUMMIT ACADEMY CLASS

# Warehousing 102

## Advanced Warehousing

### Course Description:

Warehousing 102 - Advanced Warehousing is an intensive 1-day course designed to equip participants with advanced knowledge and skills in warehouse management in Business Central. Building upon the foundational concepts covered in Warehousing 101, this course delves deeper into advanced strategies and configurations for optimizing more complex warehouse operations.

### Course Outline:

#### 1. Warehouse Concepts

- **Picking Strategies:** Explore advanced picking strategies to enhance efficiency and accuracy in order fulfillment.
- **Optimal Pickpaths:** Learn to design and implement pickpaths that minimize travel time and maximize productivity.
- **Replenishment:** Understand the importance of replenishment strategies in maintaining optimal inventory levels and speeding up picking.

#### 2. Warehouse Configuration Options

- **Zone Setup:** Master the concept of zoning and its role in organizing warehouse space for improved workflow.
- **Advanced Bin Setup:** Dive into advanced bin setup options for enhanced inventory management and storage optimization.
- **Warehouse Transactions:** Explore advanced warehouse transactions and their impact on operational efficiency.
- **Directed Replenishments:** Learn to implement directed replenishment strategies to streamline inventory replenishment processes.
- **Pick Worksheet:** Understand the use of pick worksheets for efficient order picking and fulfillment.

#### 3. Advanced Warehouse Setup

- **Implementing advanced warehouse setups** tailored to specific business requirements.
- **Leveraging advanced configurations and technologies** to optimize warehouse layout and design.

#### 4. Advanced Warehouse Transactions

- **Picking Strategies:** Explore advanced picking strategies to enhance efficiency and accuracy in order fulfillment.
- **Optimal Pickpaths:** Learn to design and implement pickpaths that minimize travel time and maximize productivity.
- **Replenishment:** Understand the importance of replenishment strategies in maintaining optimal inventory levels and speeding up picking.

**COURSE GUARANTEE**  
GAIN ADVANCED KNOWLEDGE  
AND SKILLS ESSENTIAL FOR  
OPTIMIZING WAREHOUSE  
OPERATIONS AND ACHIEVING  
PEAK PERFORMANCE.

## Additional Information:

### Target Audience

This course is designed for warehouse managers, senior warehouse supervisors, logistics professionals, inventory analysts, and individuals seeking to advance their expertise in warehouse management.

### Prerequisites

Participants should have a strong understanding of warehousing fundamentals in Business Central, either through prior experience or completion of Warehousing 101 - Warehousing Basics or equivalent coursework.

### Mode of Delivery

The course will be delivered through a combination of lectures, case studies, and hands-on exercises to ensure practical application of advanced warehouse management concepts.

Join us for Warehousing 102 - Advanced Warehousing and elevate your skills to the next level in warehouse management!
